This guide will give you more of an idea of what is available to you inside the community resource library.

ARTICULATION

Included:

These sound loaded articulation scenes are great no print option for working on carryover in sentences and connected speech. Use these scenes in mixed groups, too. Scenes can be used to elicit language and target phonemes at the same time.

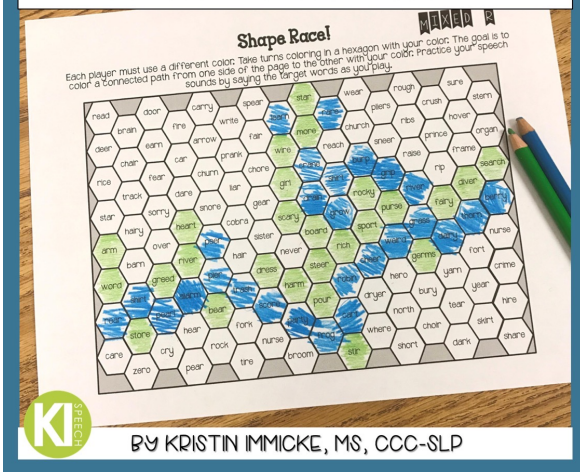

This pdf file includes 15 sound loaded articulation scenes for the following phonemes:

/t, d, k, g, f, v, s, z, l, r, th, sh, ch, dj/ and s-blends
The pages are full color and intended to be used as a no print resource on a tablet, computer, smart board, and/or teletherapy platform. You can also print and laminate the pages and store them in a binder.

RESOURCE GUIDE

Shape Race! ARTICULATION GAME

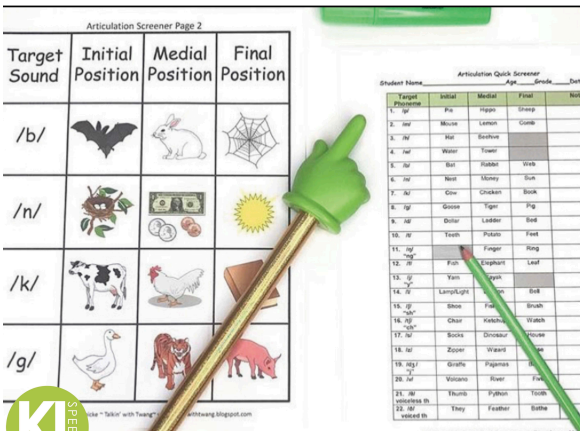

Shape Race! is an articulation game that can be played with your speech students. Students can play against each other, or against the SLP. Each student can play on their own game board, or they can play on a shared game board (no more than 4 players per game board is recommended). Students race to see who can be the first to connect a path from one end of the board to the other. This is a game of strategy...work on connecting your path, while trying to block your opponent.

This game can be used as a print-and-go, print and laminate, or no print on a tablet or touch screen computer. See preview file for full description, tips, and a sample game board!
